<https://about.me/COMMUNICATIONSOLUTIONS>

People from multiple parts of the globe have come together to provide a unique perspective on solutions for today's rapidly growing communication needs.

This team of multidisciplinary training experts has joined forces, using their team's multiculturalism, as one of their primary assets.

In a world that is becoming a global market, English is the universal language. These individuals have assembled their competencies, skills, personnel and multicultural experiences, covering diverse and complementary fields of expertise, to train people for higher levels of both business and personal success.

Resulting from in-depth proficiency, know-how and aptitude they have come up with a new concept of tailor made trainings and communication services including:

- Company Targeted Audits for Operational Language needs.
- Individualized Pedagogical proposals & implementation strategies.
- Creation of Survival Books for each field of business or each individual company.
- Next level English training.
- Progressive English training to improve accents, idioms and expressions.
- Designed training for upper level management and sales positions.
- Language practice meetings.
- Specialized Technical English for: Medical, Engineering, Tourism, Hospitality, International transport, etc.
- Bulats/Toeic Preparation, assessment & certification.
- Bi-lingual training plans for trainers of negotiations and sales.
- Network of multidisciplinary and multicultural trainers preparing companies for an increasingly diverse business world.
- Assistance in trade, negotiations and transport by providing expert communication tactics.
- Documents/training translations and simultaneous interpretation.
- Conference calls, meetings, direct negotiation translation.
- Preparation for re-entry into the job market.

"Training for superior results in an age of ever-increasing performance requirements. Through diverse professional experiences in a large variety of fields, they know what it takes to empower people to excel."
